Career Objective

Detail-oriented Computer Science Engineering graduate with strong fundamentals in programming and web technologies. Seeking an opportunity to contribute to efficient application support, system reliability, and smooth IT operations while enhancing my technical expertise.

Hard Skills

- Programming Languages: Python
- Familiar With: Java, C
- Web Development: HTML, CSS, JavaScript, React (basic)
- Databases: MySQL, SQL

Soft Skills

- Communication: Excellent written and verbal presentation skills
 - Adaptability: Flexible and quick to learn new technologies
 - Team Collaboration: Effective team player in group projects and internships
-

Education

Jerusalem College of Engineering – B.E. in Computer Science and Engineering (2021–2025)
CGPA: 8.13

Projects

Drive Alert: Real-Time Behaviour Monitoring System (Major Project)

- Developed a system to monitor driver alertness using machine learning techniques.
- Implemented real-time condition detection logic and integrated it into a web interface.
- Technologies Used: Python, HTML, CSS, JavaScript
- Role: Full-stack development; handled both front-end and back-end functionalities.

Absentees Tracker and Notification System (Mini Project)

- Web application to automate attendance and notify absentees.
- Technologies Used: HTML, CSS, MySQL, PHP
- Role: Designed front-end interface and created presentation materials

TrendyOne - Fashion Shopping Website

- Built a responsive e-commerce platform with product catalog, cart, wishlist, product details, and profile page.
- Implemented dynamic product filters, size selection, and order management system.
- Technologies Used: HTML, CSS, JavaScript, PHP, MySQL
- Role: Full-stack development; developed front-end, back-end, and database functionality.

AnyTicketZ - Multi- Purpose Ticket Booking System

- Built a web platform with dynamic seat selection and booking logic.
 - Technologies Used: HTML, CSS, JavaScript
 - Role: Full-stack developer –handled frontend interactivity and backend booking logic simulation.
-

Internships

Codebind Technologies – Web Development Internship (15 Days) [[Certificate](#)]

- Gained hands-on experience in building static and dynamic web pages
- Technologies Learned: HTML, CSS, PHP, MySQL
- Attended a workshop on Android Development
- Developed a shopping website ([view](#)).

Nullclass – Web Application Internship (2 Months) [[Certificate](#)]

- Contributed to the development of a job posting website
 - Enhanced practical understanding of full-stack development
-

Certifications

- | | |
|--|---------------------------------|
| • TCS ION NQT - IT | [Certificate] |
| • NPTEL : Introduction to IoT | [Certificate] |
| • NPTEL : Programming in Java | [Certificate] |
| • NPTEL : Principles of Management | [Certificate] |
| • Cisco Skills For All : Python Essentials 1 | [Certificate] |
| • Cisco Skills For All : Python Essentials 2 | [Certificate] |
-

Achievements & Events

- Attended technical symposiums at Tagore Engineering College and M.N.M. Jain Engineering College, participating in quizzes and debugging competitions to enhance problem-solving and analytical skills.
- Secured 2nd prize in an English essay competition during the college cultural fest, awarded a cash prize.
